

## VOLUNTEERS STILL ON PAY ROLL; TOWN COUNCIL SUSPENDS ACTION.

Muck Raking in Payment of Salaries Has Been Postponed Until Return of Councilman William McCormick.

### AN OLD BILL OF SOLICITOR

Estate of W. H. Brown Paid \$200 For Services Several Years Ago.—Session Last Night of Less Than Two Hours Devoid of Much Interest.

Because of the public clamor which resulted from the payment of volunteer firemen at the last meeting of Council, a bill that was "railroaded" through the body and passed before all but a few of the members realized its significance, resulted in the matter being brought before the body at the regular meeting last night. The matter was duly sidetracked and deferred until the next meeting, because Councilman William McCormick, Chairman of the Public Safety Committee and the man who approved the bill, is off on a hunting trip.

It is not unlikely that an effort may be made to bury the matter beyond recall, but this is hardly possible. Not a few of the Councilmen, and some of them closely allied with the organization in power, are insisting that the matter be given a thorough airing.

Councilman Edgar Cypher of the West Side brought the matter before the body. He stated that a number of property owners and citizens in general had been asking embarrassing questions about the payment of 13 volunteer firemen at the last meeting. Mr. Cypher said it was his opinion that some of these firemen had not attended any fires during the time for which they were paid; that some of them had turned in their keys a year ago and voluntarily retired from the department; and all of them were paid in full at the meeting of September 15, 1909, yet the last bill was for services extending beyond that time, making an overpayment of \$13. Mr. Cypher inquired why the East Side Councilmen did not object. Mr. McCormick asked what authority Mr. McCormick had to present this bill without the approval of the Finance Committee.

At this juncture Councilman Harry Dunn suggested that as Mr. McCormick was absent, it would be well to defer a discussion of the matter until he could be present to defend himself. He may have had good reasons, Mr. Dunn stated.

This motion was finally passed after a lengthy discussion. Many of the Councilmen were anxious to have the matter threshed out then and there, but finally agreed to hold it over.

Councilman Brennan asked why some of the volunteers had been paid and others ignored, while Councilman Friel demanded to know the authority for paying the bill without the approval of the Finance Committee.

Councilman Duggan said he thought the bill had the approval of the Finance Committee and asked if the firemen were still on the rolls. If so, he said, they should be discharged. This is a question that has come up before, and again it was sidetracked. If the firemen were not fired at a previous meeting, they are still on the payroll and are likely to come forward with their bills from year to year, fudging from the attitude of Council towards the matter.

The matter was held over until the next meeting. Chairman Thomas of the Finance Committee stated that he knew nothing of the bill. He further stated that the chairman of every committee is supposed to approve the bills of his department and his word is taken as authoritative.

Mr. Thomas further stated that the last meeting was called on such short notice that the Finance Committee had time to go over the bills for labor that had been submitted. He intimated that the volunteer firemen's salaries had been "railroaded" through.

The meeting lasted one hour and 20 minutes. With the exception of the firemen's matter and one other, everything ran smoothly. The other hitch came over the claim of the W. H. Brown estate for \$200 allowed to be due on the account of the late W. H. Brown for salary as Borough Solicitor for the first six months in 1907. Councilmen Friel, Girard and Millard were confident this had been paid, but the Finance Committee stated that from an examination of the minutes and the vouchers in the hands of the Treasurer, no trace of payment could be found. The bill was then passed as correct. This matter came up during the report of Borough Solicitor E. R. Goldsmith regarding the items that were filed.

The Finance Committee was authorized to satisfy several of these claims. E. Dunn and E. L. Hetzel had items due for \$400 each. These should have been carried because of an agreement recording the payment for a sewer in Market alley. An account against W. L. Duttermore was also

submitted. It was for \$230.23, but should never have been charged against him as this was allowed in exchange for property deeded the borough.

Chairman Thomas also submitted the assessments for recent street paving, as submitted by the Borough Engineer. These were entered on the record by Council for collection.

The total cost of paving Orchard alley was \$2,257.10 and the cost to property owners was \$1,125 per lineal foot. On Meadow lane the cost was \$2,512.41 and the cost per lineal foot \$1,107.51. On Prospect street the total cost was \$2,257.91 and cost per lineal foot to property owners \$2,321.11.

The eighth street extension, which was done by the borough, cost \$783.35 to Mount Creek and \$2,155.89 from Mount Creek to Friel crossing. With the exception of \$15, charged the Solsen Fire Brick Company, the remaining cost will be divided between Connellville borough and Connellsville township.

Council authorized the payment of \$300 in cash to A. W. Hood and cancelled the claim for paving. This was for damages resulting from the change of grade in Meadow lane. Chairman Cypher of the Street Committee was also authorized to hire two teams for a week to ash the pavements on the South Side now that the sewer has been completed.

Councilman Duggan and the other West Side members made a plea for improved conditions on the West Side hill. There was objection on account of the state of the borough's finances and Duggan then made an awful kick that the West Side is not getting its share of the improvements. The East Side Councilmen denied the impeachment and the matter was settled by authorizing the Borough Engineer to set stakes along the proposed grade to be established along Ashman avenue, or Main street, and have these viewed by the property owners. If they waive claim for damages resulting from the change of grade, the work will likely be undertaken in the near future.

There was nothing doing on police, water or public grounds and buildings. Chairman Duggan of the Water Committee said the borough's rats would likely be argued at any time now. Borough Solicitor Goldsmith was directed to petition the court to have viewers appointed on the proposed opening of Tenth and Edna streets.

Under the head of railroads President Stillwagon said there is a report that a large steel car company is seeking to locate in Scotland, only asking the donation of a 25-acre site. Council referred the matter to the Chamber of Commerce with promise of hearty support.

Council then adjourned.

## PRESIDENT'S IDEAS ON BIG CORPORATIONS

Attorney General Will Present Three Bills to Congress Embodiment Chief Executive's Views.

United Press Telegram.

WASHINGTON, Nov. 17.—At the request of President Taft a result of his work of the past three months, Attorney William H. Taft has prepared three bills to be presented to Congress embodying the President's views, affecting big corporations. They are a bill to amend the interstate commerce law, provide federal charters for corporations, a bill amending the anti-trust law.

The interstate commerce bill would create a separate Interstate Commerce court, to sit in Washington with five members. It would consider petitions and no appeal could be taken except on constitutional questions and then only to Supreme Court. The court would be empowered to read just classifications of merchandise for transportation; modify, amend and change rules issued by imposing undue burdens on shippers. Railroads doing interstate business would be prohibited from holding stock in a competing road. It would be permitted to agree on rates among themselves subject to approval of the commission. They are not permitted to issue additional securities without approval of the commission. The last measure provides national incorporation for all corporations doing interstate business.

Sir Thomas was evidently stung by the statement of an official of the New York Yacht Club to effect that he is not sincere in his desire to challenge.

Friends of the Englishman on this side of the water say his gameness in dropping three costly contests proves his sincerity on this occasion.

## BOROUGH DOES WORK VERY LOW.

Good Showing Made By the Street Committee on Eighth Street Improvement.

Grading Was Only Two Cents Over Lowest Bid of Two Contractors and Grading Done at Much Lower Figures Than Either.

Prices Compare Favorably.

Chairman Edgar Cypher of the Street Committee of Town Council is just a little proud of the record on his department made on the Eighth street improvement, work that was done by the borough instead of by contract. Mr. Cypher says he believes the borough could do the paving work at a lower figure than private contractors, but this will not meet with favor among the latter gentlemen, especially those who are close to the organization in power.

It is hard to make a comparison of costs between the Eighth street extension and the other paving done at the same time because different conditions prevailed in every case. However, the borough's cost sheets compare favorably with those of Contractor O'Connor, who paved Prospect street, Meadow lane and Orchard alley. O'Connor's work was let by competitive bid, his being the lowest figures submitted.

The paving, per square yard, cost the borough \$1.17 for Eighth street. On Prospect street it ran \$1.10, on Meadow lane \$1.00 and on Orchard alley \$1.20. In grading the borough's work was way below that on the other streets, being 25 cents a cubic yard. The lowest for grading charged on the other three streets named was 38 cents on Meadow lane, and the highest 50 cents on Orchard alley. Prospect street cost 40 cents.

Curbing was laid only on Prospect street. It cost 60 cents per lineal foot for stone. Concrete curb was laid along Eighth street at the cost of 17 cents. The borough's figures also compare favorably with those submitted by Contractor Marcus Marietta, who paved Johnston avenue. Mr. Marietta was awarded the contract at \$1.17 for paving, 50 cents for grading and 50 cents for stone curbing. His bid for concrete curbing was 45 cents, two cents lower than what it cost the borough on Eighth street, but the stone curb was decided upon.

PROMISE TO SETTLE MEETS WITH HITCH. Lack of Marriage License Keeps Joe Marchine Still in Hands of Law.

Joe Marchine, a foreigner, arrested Monday by Constable J. W. Mitchell on a serious charge preferred by Kate Wischick, aged 15, was arraigned before Squire S. S. Kern yesterday morning and promised to settle the matter by the matrimonial route. There was a hitch in the proceedings this morning when the couple went before Rev. E. E. Geiboff to be united.

It appears that the girl misunderstood Squire S. S. Kern when he secured the parents' consent to the marriage and thought she would have to be married there. She demurred and the resulting explanations proved confusing as the two thought the consent papers were all that were necessary.

At the parsonage on the West Side the two learned their mistake and Constable Mitchell was hurried to Uniontown to secure the proper papers. The ceremony was deferred until this afternoon.

Palmer was charged with having represented falsely that he was disabled and could not mark his ballot. He asked for assistance and former Sheriff S. E. Frook marked his ticket. It was admitted at the hearing that Palmer is able to read and write and J. W. Dawson, representing the prosecutors, contended that the courts have ruled ignorance is not a disability.

S. E. Frook took the stand and stated that Palmer asked him to mark his ballot, claiming he did not understand it. Frook said Palmer admitted his ability to read and write. J. I. Feather, County Chairman R. W. Dawson and Attorney S. J. Morrow were the other witnesses. J. W. Dawson appeared for the prosecutors and George B. Jeffries for the defense.

A writ of certiorari was received from the Superior Court this morning giving notice of an appeal of the Umber audit case of that body. In the courts here the petition for the audit of Judge Umber's primary expenses was dismissed but the costs were placed on the defendant for his failure to itemize his expenses more fully. This did not satisfy the petitioners for the audit, who will take the appeal.

Deputy Sheriff Joseph King left this morning for the Western Penitentiary taking with him Lew Strayer and Thomas Clark, who were sentenced yesterday. Before returning to Uniontown he will transfer Ben Anderson from the penitentiary to Dixmont.

## DATE IS CHANGED FOR BLUE MOUSE

Fitch Play Comes on Nov. 24 Instead  
of Thanksgiving as Previously  
Announced.

The date for "The Blue Mouse," which had been billed for the Colonial theatre on Thanksgiving day has been changed to the evening of November 24. The company comes from Wilkes-Barre and the jump is so long that time enough is not given to place the stage settings.

"The Blue Mouse" is one of Clyde Fitch's big successes and had a long run in New York. Its appearance at the Colonial will be the first time the theatre goes in this section of the country will have had the opportunity of seeing it.

The change in date of "The Blue Mouse" leaves Connelville up to the present without a Thanksgiving theatrical attraction or amusement event of any sort.

Excluding the breezy bustle of Broadway, Willis Maxwell Goodale, advance representative of "The Blue Mouse" blew into town this morning to make preliminary arrangements for presenting the big Shubert show at the Colonial theatre next Wednesday evening and announced the change stated above.

## HUNTERS DO WELL.

Turkey and Pheasant Bagged in Somerset County.

Three wild turkeys, six pheasants and ten gray squirrels were bagged by three Fayette county hunters, E. B. May and Jacob Elder of Waltersburg and Al. P. McKend of Connelville, in a two days' hunt in Somerset county.

The turkeys were beauties. The largest weighed close to 25 pounds, while the smallest tipped the beam at 21 pounds. The hunters report plenty of wild turkeys in Somerset county, but the dry leaves upon the ground made hunting them very difficult. Squirrel and pheasants, they say are also plentiful.

## SHOT A WILD DUCK IN BOROUGH LIMITS

West Side Man Got the Duck and  
Policeman Got the Man Who  
Did the Shooting.

William Myers shot a wild duck on the river almost opposite City Hall this morning, but a man from West Side landed the prize by going after it in the dilapidated row boat that is tied on that side of the river for use in emergencies. Myers started for the boat from this side of the river, but was halted by the arrival of Chief Rottler and Officer McDonald.

The young man was brought to City Hall but no charge was entered against him. He explained that he did not know he was violating the laws, by shooting in the borough, and admitted that he was so excited at seeing the duck that he grabbed his gun and ran for the river bank without thinking of ordinances or laws.

Burgess Evans permitted Myers to go and no charge was entered against him. Neither was he arrested, but merely reported to the Burgess at City Hall at the request of the chief.

Officer Thomas McDonald hiked across the bridge after a man on that side of the river but the stranger escaped. He had not done any shooting. The duck was wounded by Myers and Kelly killed it before hauling it into the boat. It was the only one that was seen.

# Answer This Question

When a remedy has lived for over thirty years, steadily growing in popularity and influence, and thousands upon thousands of women declare they owe their very lives to it, is it not reasonable to believe that it is an article of great merit?

We challenge the world to show any other one remedy for a special class of disease which has attained such an enormous demand and maintained it for so many years as has **Lydia E. Pinkham's Vegetable Compound**, the famous woman's remedy for woman's ills. Unless it is a very good medicine and the claims made for it are honest, such a record would have been impossible—fraud or misrepresentation would long ago have been detected and the business gone into oblivion. Read this unsolicited letter:—

Melbourne, Iowa:—"I suffered for many years with female troubles, inflammation, and bearing-down pains, so that I was unable to do my work."

"Lydia E. Pinkham's Vegetable Compound was recommended, and I am so thankful for the great good it has done me. I feel that I am a living advertisement for this medicine as I have influenced so many of my friends to use it, so thankful am I that it restored me to health."—Mrs. Clara Watermann, R. D. 1, Melbourne, Iowa.

When a woman like Mrs. Watermann is generous enough to write such a letter as the above for publication, she should at least be given credit for a sincere desire to help other suffering women. For we assure you there is no other reason why she should court such publicity.

Write it in all sincerity and friendship—try this medicine.

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No sick woman does justice to herself who will not try this famous medicine. Made exclusively from roots and herbs, and has thousands of cures to its credit.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health free of charge. Address Mrs. Pinkham, Lynn, Mass.

## POLICEMAN'S BALL.

## A FLOW OF WATER IN SCOTSDALE WELL.

Dick Fretts Strikes It at  
Twenty-Seven Feet  
Drilling.

TO SUPPLY APARTMENT HOUSE

Illuminating Engineer Contracts For  
Two Big Signs—"Buck" Skemp In-  
jured in Sheet Mill Accident—Other  
News of Mill Town.

SCOTSDALE, Nov. 17.—At a depth of 27 feet D. Dick Fretts, the well driller of near town, struck a supply of clear water that filled the drill hole for about six feet in the well that he has bored for A. C. Overholt at the northwest corner of the latter's large apartment house on Pittsburg street. This large building will be supplied with water independent of the City Water Company hereafter if the flow does not fail. Years ago when a local water company was formed there were many good wells in town, but the people upon the advent of the mountain water filled up their wells, a foolish procedure in which they were encouraged naturally by those who made a good sum of money by putting the wells out of business.

A Tile Roof Going On.  
This splendid new residence which J. I. Murphy is having built on Louisa avenue is one of the best houses in town, and is attracting interest now since it is being roofed, green tile being used for that purpose. It will be the first residence so covered in town, and this fact is causing the curious to be concerned about the roofing. D. L. Sherrick, built a residence last year on which asbestos shingles were used, but Mr. Murphy takes the lead in the round tile roofing here. The slate roof is a beautiful covering used in this section and holds a great reputation among house builders.

A Handsome Reception.  
One of the prettiest social functions of the season was the reception and five hundred party given by Mrs. Eugene R. Carter and Miss Clara Carter of Emerson at the Elks Club house in Scottdale yesterday afternoon, when 40 ladies, nearly all from Scottdale, were entertained. The handsome rooms were beautifully decorated in pink and white and the ladies were from 2 to 5, a luncheon being served. The prize winners were Mrs. James Bennett of Greensburg, Mrs. Beulah Morrison of Scottdale and Miss Mary McGinn of Greensburg.

Railroad Improvements.  
The Pennsylvania railroad has had a force of men working in the freight yards here building a bumper and runway for the freight cars as they are placed on the siding here, and making other improvements for the handling of freight.

Harold Skemp Hurt.  
Harold Skemp of town, the well known all round athlete, who is familiarly known as "Buck" Skemp, had a serious accident at the Vandergrift

plant of the American Sheet & Tin Plate Company where he is employed as a chemist, when a truck run over his foot and crushed it so that a partial amputation was necessary. He was taken to a Pittsburgh hospital and his father, Robert Skemp, Division Superintendent, went to the hospital at once upon receiving word of the accident, which will likely cripple the young athlete.

Great Y. M. C. A. Course.  
The interest in the lecture course of the Y. M. C. A. this season so far surpasses all previous years that the Entertainment Committee has had to find that a reasonable preference will be given regular season ticket holders in the matter of securing single admission tickets. This will give them an opportunity of securing single admissions to add to their regular season tickets, and the Association thought it only fair considering the demand and the fact that it is the tickets for the entire season which makes the lecture course so sure, to give the latter additional opportunity to engage further. The first attraction is on Friday evening, when the Dundee Bell Ringers and Quartet will be here.

Electric Sign Work Good.  
E. J. Mora, illuminating engineer of the West Penn Electric Company, spent a busy day in Scottdale yesterday, day interesting merchants in electric signs. Two firms have already contracted for big signs which will blaze the top of their buildings, the J. S. Parlor Company and at Miller & Bro. Chicken and Waffles.

The Ladies Aid Society of the First Baptist Church of Scottdale have arranged for a chicken and waffle supper on Saturday, November 20. Supper will be served at 5 o'clock. Tickets 50 cents each.

Curt Steiner Sells.  
Curt Steiner formerly of Scottdale has sold the Colonial hotel in South Greensburg to Nicholas Rorke, who has been the proprietor for several years. Mr. Rorke has bought the property outright for \$23,000.

Perryopolis is Booming.  
John Townsend of Perryopolis has been visiting Dr. and Mrs. A. W. Strickler this week and says that Perryopolis is booming, all the brick

yards and mines about there working full time. Perryopolis is the hub of some of the finest clay in the State and used to be a site for a pottery and ware manufacturing, but the latter has been succeeded by brick manufacturing.

Strayer Well Known Here.  
Lew Strayer, the life insurance agent who was sentenced for five years to the penitentiary at Uniontown yesterday, on charges of forgery, is well known here, while he has written many policies in the last few years.

Dealers Busy.  
John H. Todd and Charles Bellie have completed a well on the Francis East farm, in Nicholson township, and have a drifter. It was plugged. They are moving the rig to a point near Point Marion where they will drill a well for gas.

Tax Notice.  
Now as times are better, you should and must pay your taxes, you will not only save five per cent, but may save costs also. Geo. B. Brown, Collector.

### MT. PLEASANT.

MT. PLEASANT, Nov. 17.—Thomas Macpherson is able to be around again following several weeks' confinement with typhoid fever. Glen Harrison, who is employed in an automobile garage at Uniontown is spending a few days with his parents at this place. Mrs. Clyde Weaver is recovering from an operation for appendicitis. Mr. S. Meyer was calling on friends in Scottdale yesterday. James Burns spent Monday with his mother, Mrs. Sarah Burns, of Homestead. Raymond Harshbarger of Ohio is visiting relatives and friends here. Miss Jane Pootnik was calling on friends in Pittsburgh today. The Mt. Pleasant floor ball team opened their season by playing at Connelville last evening. They were accompanied by a number of rooters. Have you tried our classified advertisements? Only in a word. The Junior High School basketball team has been reorganized and is now preparing for the opening game to be played at Connelville Saturday night with the intermediate Y. M. C. A. team. The team has been strengthened greatly by new players and a victory is looked for.

#### THE SOISSON.

"Billy the Kid"  
Producers of the plays of today, as well as the dramatic authors are keenly alive to the fact that the public who patronize the theatre demand a great deal of realism in all productions. In the writing of melodramas, the authors of recent years have relied to a great extent for their effects upon the mechanism of the stagecraftsman. Nearly everything, from the fire engine to the steam hammer, has been at some time or other utilized. It is therefore refreshing when the announcement is made that one of the plays of the season, "Billy the Kid" is not a melodrama, where stage mechanics dwarf the actor, but one where the situations are brought about by logical action of the well defined story the play tells, and they are said to be of exceptional strength. Novelties of many kinds abound and there is lots of comedy. The action of the play is placed in four acts all of which are laid in New Mexico. The characters are interesting types and are for the most part drawn from life. At the hand of a well known company of players and with an elaborate production, "Billy the Kid" will be seen here at the Soisson theatre, matinee and night, Thursday, Nov. 18.

and night, Thursday, Nov. 18

"East Lynne."

Local theatregoers will be interested in the announcement of the appearance at the Soisson theatre, Friday, Nov. 26, of the favorite emotional drama, "East Lynne" the greatest of all emotional plays. The company has been selected with discrimination and in the matter of scenic equipment and accessories the presentation of "East Lynne" will measure up to a high standard. The engagement at the Soisson is for matinee and night.

"The Girl From Rector's."

The big New York success, "The Girl From Rector's" comes to the Soisson theatre, matinee and night, Saturday, Nov. 27 with a big company of 60 people and a card of special scenery. It will be one of the leading musical events of the season.

### GREENE COUNTY COAL ASSESSMENT IS HIGH

The First Assessor Reporting Has Raised Valuations of Coal Lands Three-Fold.

WAYNESBURG, Nov. 17.—D. K. Fox of Mt. Morris, is the first assessor of the county to complete the work of making the triennial assessment and legislation. Mr. Morris is one of the smaller districts of the county. According to the report filed the borough of Mt. Morris this year contains 132 resident taxpayers, the value of real estate is \$14,767.00, the 66 horses are valued at \$3,975, money at interest \$17,310. Mr. Fox found 37 dogs in the borough.

Three years ago the value of the real estate in the borough was assessed at \$11,655.

The principal cause for the change in these figures was the value fixed on the coal. Three years ago the coal in the borough was assessed at \$40 per acre while this year Mr. Fox assessed the black diamonds at \$125 per acre. The money at interest last year was given in at \$41,650.

## MORE EVIDENCE IS DISCOVERED.

Many Are Known to Be Implicated in the Sugar Frauds.

### ACTION BY CONGRESS CERTAIN

Civil Service Commission Issues Statement That Twenty-two Assistant Weighers Are Known to Be Implicated.

Washington, Nov. 17.—The widespread condition of crookedness prevailing in the New York custom house is shown by an official statement issued by the United States civil service commission. In this statement the commission says that it has been informed by the office of the collector of customs in New York that twenty-two assistant weighers "are known to be implicated in the frauds or are under suspicion of a positive character."

The statement applied to the sugar frauds only. This is more than 17 per cent of the total number of assistant weighers employed in the New York custom house. With the elimination of ten assistant weighers who are

JAMES B. REYNOLDS, Former Assistant Secretary of the Treasury.

working under temporary appointments and whose services in the custom house seems to have been of recent origin the percentage of those known to be implicated or under suspicion of a positive character is increased to nearly 19 per cent.

That congress will make inquiry into the charges concerning the manner in which the sugar trust has been bleeding the government now appears to be assured. Two Republican members of the house of representatives declared that an investigation could not be avoided and a Republican United States senator who did not wish to be quoted in the matter expressed an opinion along the same lines. Such an investigation necessarily will include probing into the rottenness in the New York customs house.

Accusations Cannot Be Ignored. Accusations involving government employees at the port of New York cannot be ignored by any congressional committee. Such an inquiry would take into account the manner of the appointment of employees who turned out to be dishonest, and doubtless would be followed by recommendations looking to an improvement of the system governing the selection of officials and others detailed to customs work.

James B. Reynolds, former assistant secretary of the treasury, declined to add anything to his published statement on the sugar trust frauds. He said that he believed what he had already said sufficiently answered the statements of Richard Tarr, the customs employee, who charged that his work of running down sugar trust frauds had been interfered with by orders from Washington.

Mr. Parr said that he did not care at this time to engage in further controversy with James B. Reynolds, whom he had charged with obstructive tactics when Reynolds was assistant secretary of the treasury. Mr. Parr said that no efforts had been made to "shut him up," and that nobody could muzzle him, but he did not think it necessary at this particular stage to submit actual evidence.

"When the time comes," said Mr. Parr, "I can dispose of Mr. Reynolds in one statement."

Indicted Men Plead Not Guilty. New York, Nov. 17.—James F. Bendersnagel, the former manager of the Williamson plant of the sugar trust, and five other employees of the concern pleaded not guilty before Judge Hough in the criminal branch of the United States circuit court to the indictments charging conspiracy to defraud the government and effecting entries of sugar under false weights.

All the defendants reserved the right to demand to the indictment or make such motions as they might see fit within a week. Hall was continued to each case and Bendersnagel, who had deposited \$5,000 cash bail, was allowed to furnish real estate security. The men arraigned with Bendersnagel are Oliver Spitzer, Thomas

Kehoe, John C. Coyle, Edward A. Boyle and Patrick Hennessey. Jean M. Vonker, a sixth defendant to the same charges, is ill at a hospital and did not appear. H. F. Cochran, a sugar trust lawyer, appeared for all the defendants except Spitzer, who was represented by George M. Mackellar.

Cochran complained to the court that a new indictment had been entered and said that he would need additional time to prepare the defense. He also declared that the present state of the public mind is such that a fair trial would be impossible and he asked that the cases be put over until public feeling had subsided.

Special United States Attorney Stimson replied that the new indictment differed from the old only in the addition of Bendersnagel's name, and that since counsel for the defense must be familiar with the first indictment there was no reason to postpone the cases.

Mr. Cochran's remarks about the inflamed state of the public mind on matters concerning sugar gave rise to a report that a change of venue may be asked for.

Evidence Was Presented to Bonaparte. New York, Nov. 17.—Charles J. Bonaparte, President Roosevelt's attorney general, had startling evidence of the sugar trust's frauds offered to him by the United States district attorney in Philadelphia in February, 1908. Mr. Bonaparte was not interested.

### CORPORATIONS BATTLE.

Giant Steel Concerns Scramble Over Big Patent Rights.

Pittsburg, Nov. 17.—Millions are involved and the armor plate industry throughout the world is vitally interested in a suit now on in the United States district court between giant rival concerns—the Midvale Steel company and the Krupp interests of Essen, Germany. A third competitor, the Carnegie Steel company, also is dragged into the affair.

One of the most bitter legal struggles ever waged between two great corporations is promised through the efforts of the great German gun-making and armor plate concern to check what it calls the misuse of patent rights by its American competitor. The Midvale company at present is busy with contracts to equip American battleships with belts of steel and the entire case promises to become one of worldwide interest.

The Carnegie Steel company becomes a party to the suit because some of the Krupp rights are used at Homestead under a contract with the patentees. The Midvale company, it is asserted, also is using these processes without compensation and the claim is made further that for this reason it is able to outbid other competitors on naval contracts.

Whether Charles M. Schwab and his Bethlehem plant and the United States Steel corporation will have a monopoly in the armor plate business hinges on the outcome of the suit.

Connellsville, Like Every City and Town in the Union, Resolves It.

People with kidney trouble want to be cured. When one suffers the tortures of an aching back, relief is eagerly sought. There are many remedies today that relieve but do not cure. There is evidence to prove that Doan's Kidney Pills cure, and the cure is lasting.

Mrs. J. A. Conn, 710 Pittsburg St., Scottsdale, Pa., says: "It is a pleasure to recommend Doan's Kidney Pills, for they have been of the greatest benefit to me. I was troubled by kidney complaint and backache for years and as time passed, my condition became worse. Although I had but little faith in advertised remedies, I finally procured a box of Doan's Kidney Pills and commenced their use. The first few doses gave me relief and from that time on I steadily improved until my condition was better in every way." (Statement given Oct. 8, 1907.)

Re-endorsement. Mrs. Comp was interviewed on Oct. 8, 1909 and said: "I have had no need of a kidney remedy since taking Doan's Kidney Pills some two years ago, for the relief I received has been permanent. My former testimonial still holds good."

## WESTERN UNION CHANGES HANDS.

American Telegraph and Telephone Co. Now in Control.

### GOULD SELLS HIS HOLDINGS

Mackay Company, Owners of the Postal Telegraph, Are Largest Holders of Stock in A. T. and T. Company.

New York, Nov. 17.—The passing of the Western Union Telegraph company into the control of the American Telephone and Telegraph company, foreshadowed by the events of some months past, has been announced. Theodore N. Vail, president of the telephone company, in a statement issued in Boston, said that his company had obtained a "substantial majority" of the stock of the Western Union.

Absolute control of the Western Union, and that by stock purchase, was said by an authority to be the true meaning behind Mr. Vail's statement. The same authority gave as his opinion that the American Telephone and Telegraph company had purchased the holdings of George Gould and his associates, together with those of Mrs. Russell Sage and the stock owned by the late Giovanni P. Morosini, amounting in all to about \$20,000,000 shares, valued at about \$42,500,000. The Mackay company is the largest single stockholder in the American Telephone and Telegraph company and holds large blocks of stock in eight or nine of its subsidiaries. It was advanced further that the Postal for some time has had an agreement with the telephone company whereby its messages are transmitted at congested periods over telephone wires.

Preliminary Step to Great Monopoly. In some quarters the control of the Western Union by the American Telephone and Telegraph company was taken to be but the preliminary step for a unification of the three companies into one immense corporation having a virtual monopoly of the telephone and telegraph business of the United States.

Edward J. Nally, vice president and general manager of the Postal Telegraph Cable company, said that he had no knowledge of any such combination. He declared that no such step was likely to be taken at any time in the near future.

Holdings of Western Union stock by the Mackay company have long been admitted, though the precise amount has been withheld.

Changes Expected in Administration. Important changes are expected in the administration of the Western Union. It was rumored that William H. Baker, who was vice president and general manager of the Postal Telegraph Cable company for twenty years up to May, 1907, and who has been intimately connected with the American Telephone and Telegraph company since that time, will succeed Colonel Robert C. Cleary as general manager and possibly as president of the Western Union. Neither Colonel Cleary nor Mr. Baker would say anything to substantiate the rumor.

A competent authority estimates that the joint operation of the two companies will effect a saving of from \$4,000,000 to \$6,000,000 annually.

George Gould gave out this statement:

"It is a fact that we have sold a large part of our holdings in the Western Union Telegraph company to the telephone company. I believe this will have to the benefit both of the public and the Western Union stockholders, as the business of both can be handled so that they form a complement to one another, thus giving to the fullest extent prompt and satisfactory service to their patrons. There should be worked in harmony, which should be to the great advantage of the public, as well as to the mutual interest of both companies."

### JURY ADDS \$1,000

Woman Asked \$5,000 Damages From Railroad; Gets \$6,000.

Pittsburg, Nov. 17.—Foreed to give up her seat on an excursion train to an intoxicated negro, separated from her sick babe and ejected from the train by railroad men in a lonely stretch of country—this was the story submitted to a jury by Mrs. Mary Crowley in her claim for \$5,000 damages against the Pittsburg, Cincinnati, Chicago and St. Louis Railroad company. The sympathetic jury reached a verdict for \$6,000 in Mrs. Crowley's favor.

Mrs. Crowley charged that while returning from Rock Springs Park, W. Va., June 29, 1905, the negro demanded her seat. She was nursing a sick babe at the time and who declared that the negro cursed and threatened her. She charged that train attendants then roughly dragged her from the seat and ejected her from the train taking the child to Pittsburg. Farmers took care of her until the next day, when she declared the company refused to honor her return ticket.

Despondent Man Seeks Rest in Death. Altoona, Pa., Nov. 17.—Unable to get work to support his family, Newton Fisher, aged thirty-eight years, tried to cut his throat with a pocket knife and is dying.

### WARRINER IN JAIL.

Big Four Official and Workman Accused in Prison Cells.

Cincinnati, Nov. 17.—Charles L. Warriner, former treasurer of the Big Four railroad, slept last night in a cell at the county jail here. At the other end of the jail is Mrs. Jeannette Ford, the alleged blackmailer. The arrest of Edward S. Cook, who is alleged to be connected with the case, is hourly expected.

The arrest of the Ford woman followed disclosures made by Warriner in a secret conference, with Prosecutor Hunt after the former treasurer had failed in an effort to get a bondsmen and when he knew the county jail was awaiting him.

After the conference the prosecutor went to the office of Magistrate Meyers, where he swore to a warrant charging that Mrs. Ford had "received the sum of \$1,000 on Oct. 1, 1909, which she knew to have been embezzled from the Big Four railroad."

Mrs. Ford was arrested at her flat and taken before the magistrate. Her bond was fixed at \$2,500, which she was unable to furnish. She was committed to the county jail.

Warriner sent appeals to prominent men of the city to go on his bond. There were no responses to his pleas. His friends and neighbors of the aristocratic suburbs of Wyoming had notified him that they did not care to be connected with the case further. Finally he gave up the attempt.

### TWO MORE PLEAD GUILTY

Youngstown Officials Admit Taking Bribes.

Youngstown, O., Nov. 17.—Two more of the men indicted for graft have pleaded guilty to the charges against them. George Wetzel, before the jury was selected to try him, pleaded guilty to the charge of receiving, as a member of the good roads commission, a bribe from O. S. Starr for purchasing the land of a road machine the latter was selling.

John V. Waldeck, member of the contracting firm of Waldeck & Ready of Warren, O., pleaded guilty to the charge of bribery. Ready refused to plead and his case will be taken up later. Judge Robinson refused the motion for W. W. Kelley of Pittsburgh to quash indictments against him for bribery. Kelley is a contractor who had contracts with the good roads commissioners, all of whom pleaded guilty to the charge of taking bribes.

### BLACKSMITH WINS WEALTH

Gallipolis, O., Nov. 17.—Mason Grover of Bidwell, O., signed an agreement with attorneys representing the United States Steel corporation, which will bring him \$200,000 in cash and royalties.

Grover conceived the idea of transforming iron immediately into steel by a simple process. As soon as the \$200,000 is paid him the secret will be handed over by Grover, who is a poor, hard working blacksmith.

### Peruvian Bishop Killed by Bomb.

Lima, Peru, Nov. 17.—A dispatch from Lima, Peru, to the Secolo says the bishop of Cuzco has been killed by a bomb thrown by an anarchist. The bishop was riding in his carriage with his secretary when a bomb was hurled at the vehicle. The bishop was instantly killed and his secretary terribly injured. Both of the secretary's legs were amputated. The murderer made an unsuccessful attempt at suicide. The police had a hard time rescuing the assassin from a crowd which had caught him and were determined to lynch him.

### NOW SOLD IN AMERICA.

In Less Than Three Years, Parisian Sage, the Splendid Hair Tonic, is Sold All Over America.

There is a reason for the phenomenal sale of Parisian Sage in the United States during the past three years.

And the reason is plain to all. Parisian Sage does just what it is advertised to do.

Ask A. A. Clarke about it. He will tell you that he rigidly guarantees it to cure dandruff, stop falling hair or itching scalp in two weeks or money back.

There is no reason whatever why any man or woman should fail to take advantage of the above generous offer. But one thing that has made Parisian Sage so famous is its peculiar power to turn the harsh, unattractive hair that many women possess into luxuriant and radiant hair in a short time. Women of refinement the country over are using it and it never disappoints. Read this letter:

"I procured Parisian Sage and found that it was a great hair tonic and restorer. I have used other preparations but Parisian Sage cleaned the scalp, stopped all irritation, made my hair fluffy, silken and left no trace of stickiness as some other hair tonics had." Mrs. Sarah Sandhoff, 1102 N. Washington St., Owensboro, Mich. June 22, 1909.

Sold by leading druggists everywhere and in Connellsville by A. A. Clarke for 50 cents a large bottle. The girl with Auburn hair is on every package, mail orders filled, charges prepaid by the American makers, Groux Mfg. Co., Buffalo, N. Y.
